

PROCEDURE

1. Remove ground wires from present ground point. Cut ground wire "eyes" in half in order that it may fit on blower mounting bolt.
2. Loosen blower mounting bolt and install both connectors under washer and retighten bolt.

Note: Air Conditioner manufacturers will modify the connectors in the near future.

RX-7 AIR CONDITIONER "ON" AND "OFF" SWITCH

RX-7's produced on and after January 27, 1979 (Serial number SA22C-540387) will be equipped with air conditioner "ON" and "OFF" switch.
